

ABSTRACT OF THE DISCLOSURE

An absorbent article (1) includes a cuff (30) and a liquid-holding absorbent (5). The cuff (30) is provided on a surface of a sheet (3) covering the liquid-holding absorbent (5).
5 The cuff (30) is obtained by folding the sheet, which faces a surface of a body of a wearer, and folding back the sheet so as to form a two-folded shape. An adhesion section (37) for keeping the two-folded shape of the cuff is provided at least near a base portion.
10 of the cuff.
